TRIBUNE ALMANAC FOR 1884.

ECLIPSES.

In the year 1884, which is a leap year, there will be five eclipses, three of the Sun and two of the Moon.

I. A partial eclipse of the Sun, March 27th, invisible in America. The eclipse, which will be a small one, will be almost exclusively confined to Northern Europe.

II. A total eclipse of the Moon, April 10th, partly visible in various parts of the United States before the Moon sets in the morning. The eclipse will be total on the Pacific Coast, in the Pacific Ocean and in Asia. The times of the various phases are as follows:

III. A partial eclipse of the Sun, April 25th, invisible in America. The eclipse will be visible at the extreme points of South Africa and South America, and in the Southern Atlantic Ocean.

IV. A total eclipse of the Moon, October 4th, partly visible in the Atlantic States when the Moon rises. The total phase of the eclipse ends at 5h. 49m. p. m., and the Moon leaves the shadow at 6h. 49m. p. m., standard Eastern time. In the above table the time of the Moon's crossing the 75th meridian is given to the nearest minute for every day of the year in Standard Eastern time. To find the time when the Moon will cross each of the other Standard time meridians, add two minutes for each meridian west of the 75th. Thus, on January 1, the Moon crosses the 75th meridian at 2:39 p. m. It will, therefore, cross the 90th at 2:41 p. m., the 105th at 2:43 p. m., and the 120th at 2:45 p. m.

The time of the Moon's southing is particularly useful on the coast, in enabling sailors and others to foretell approximately the time of high water. Knowing the "establishment of the port," as it is called—that is, the average interval elapsing between the Moon's southing and the next high water, for any given locality—the time of high water is found by adding this establishment to the time of the Moon's southing. Thus, the establishment of the port of New-York being 8h. 00m., add to this the Moon's southing on January 1, 2:39 p. m., and the result, 10h. 39m. p. m., will be the time of high water on the evening of that day. This, it must be remembered, is only a rough approximation to the true time, but it will usually be found near enough for all practical purposes. Where the "establishment of the port" is not known it may be found by noting the time of high water after full Moon and deducting from it the time of the Moon's southing that day. And this establishment may be further corrected by ascertaining the differences in time between the Moon's southing and high water for a month, and taking the mean or average.

The Calendar.

The following calendar having been computed and stereotyped before the recent adoption of Standard time, the hours of the daily and other phenomena are given throughout in the local mean time of the places named. Due allowance must therefore be made for the difference between the Standard time and the local mean time of the locality. This difference must be added to the calendar time for all places west of the Standard time meridian, and subtracted from it for all places east, in order to give the correct time of the phenomena in Standard time. Thus New-York and Washington are on different sides of the 75th meridian, the former being 4 min. East and the latter 8 min. West. On January 1 the sun rises at New-York at 7:24 a. m. local or calendar time. Subtracting the difference, 4 min. and we have 7 h. 20 min. as the hour of sunrise at New-York, Standard Eastern time. At Washington on the same morning the sun rises at 7 h. 19 min. Adding 8 min. gives, 7 h. 27 min. as the hour of sunrise at Washington in Standard Eastern time. Similar corrections can readily be made for each locality.

ABSTRACT OF PUBLIC LAWS

PASSED AT THE SECOND SESSION, FORTY-SEVENTH CONGRESS.

[December 4, 1882—March 3, 1883.]

ARMY AND NAVY.

Chap. XCIII.—Mileage of officers of the Army shall be computed over the shortest usually traveled routes between the points named, and the necessity for such travel shall be certified to by the officer issuing the order. Retirements under the Navy Appropriation Act approved June 30, 1882, are in addition to those theretofore authorized by law. Officers shall only be assigned to duty or command according to their brevet rank when actually engaged in hostilities. Vacancies that may hereafter occur in the pay corps, in the grades of lieutenant colonel and major, shall not be filled by original appointment until the pay corps shall be reduced to forty paymasters, and the number of the pay corps shall then be established at forty and no more, and hereafter vacancies occurring in the Quartermaster's and Commissary's Departments may in the discretion of the President be filled from civil life. Hereafter no part of the sums appropriated for the Subsistence and Quartermaster's Departments shall be used or expended in the investigation of claims under the act of July 4, 1864, to provide for the payment of certain demands for quartermaster's stores and subsistence supplies furnished to the Army, and acts supplementary thereto.—[Approved March 3, 1883.

Chap. XCVII.—Hereafter only one-half of the vacancies in the various grades in the staff corps of the Navy shall be filled by promotion until such grades shall be reduced to the numbers fixed for the several grades by the act of August 5, 1882. * All officers of the Navy shall be credited with the actual time served as officers or enlisted men in the regular or volunteer Army or Navy, or both, and shall receive all the benefits of such actual service in all respects in the same manner as if all said service had been continuous and in the regular Navy in the lowest grade having graduated pay held by such officer since last entering the service. That the President is authorized and requested to select from the Army and Navy six officers, who shall constitute a board to examine and report which of the navy-yards or arsenals has the best location and is best adapted for the establishment of a government foundry, or what other method, if any, should be adopted for the manufacture of heavy ordnance adapted to modern warfare, the cost of all buildings, tools, and implements necessary in the manufacture thereof, including the cost of a steam-hammer or apparatus of sufficient size for the manufacture of the heaviest guns. For the construction of the steel cruiser of not less than 4,300 tons displacement now specially authorized by law, two steel cruisers of not more than 3,000 or less than 2,500 tons displacement each, and one dispatch boat, as recommended by the Naval Advisory Board in its report of December 20, 1882, $1,300,000 were appropriated. Hereafter no officer of the Navy shall be employed on any shore duty, except in cases specially provided by law, unless the Secretary of the Navy shall determine that the employment of an officer on such duty is required by the public interests, and he shall so state in the order of employment, and also the duration of such service, beyond which time it shall not continue.—[Approved March 3, 1883.

Chap. CXLI.—To enable the Secretary of War to remove all claims and pretensions in respect of the property in the State of Virginia known as Arlington, on which a cemetery for the burial of deceased soldiers of the United States has been established, and which property was taken by the United States for public use in the year 1864, $150,000 were appropriated; but this appropriation shall not be paid until the Attorney-General shall be satisfied, and so certify to the Secretary of War, that the deed or deeds to be given to the United States will convey a complete title and contain covenants of general warranty and covenants against every manner of claim against or in respect of said property, whether in rem or in personam, and also against all and every claim for damages in respect of, or the use and occupation of said property, and also a release by every person entitled of all claim for and to the amount bid, or any part thereof, in behalf of the United States, on the tax sale of said property. It shall be the duty of the Secretary of the Navy to cause to be appraised, in such manner as may seem best, all vessels of the Navy which have been stricken from the Navy Register under the provisions of the act making appropriations for the naval service for the fiscal year ending June 30, 1883. And if the said Secretary shall deem it for the best interest of the United States to sell any such vessel or vessels, he shall, after such appraisal, advertise for sealed proposals for the purchase of the same, etc. —[Approved March 3, 1883.

CIVIL SERVICE ACT.

Chap. XXVII.—The President is authorized to appoint, by and with the advice and consent of the Senate, three persons, not more than two of whom shall be adherents of the same party, as Civil Service Commissioners, who shall hold no other official place under the United States. The President may remove any commissioner; and any vacancy in the position of commissioner shall be so filled by the President, by and with the advice and consent of the Senate, as to conform to said conditions for the first selection of commissioners. It shall be the duty of said commissioners to aid the President, as he may request, in preparing suitable rules for carrying this act into effect, and when said rules shall have been promulgated it shall be the duty of all officers of the United States in the departments and offices to which any such rules may relate to aid, in all proper ways, in carrying said rules, and any modifications thereof, into effect. And, among other things, said rules shall provide and declare, as nearly as the conditions of good administration will warrant, as follows:

First. For open, competitive examinations for testing the fitness of applicants for the

public service now classified or to be classified hereunder. Such examinations shall be practical in their character, and so far as may be shall relate to those matters which will fairly test the relative capacity and fitness of the persons examined to discharge the duties of the service into which they seek to be appointed.

Second, That all the offices, places, and employments so arranged or to be arranged in classes shall be filled by selections according to grade from among those graded highest as the results of such competitive examinations.

Third, Appointments to the public service aforesaid in the departments at Washington shall be apportioned among the several States and Territories and the District of Columbia upon the basis of population as ascertained at the last preceding census. Every application for an examination shall contain, among other things, a statement, under oath, setting forth his or her actual bona fide residence at the time of making the application, as well as how long he or she has been a resident of such place.

Fourth, That there shall be a period of probation before any absolute appointment or employment aforesaid.

Fifth, That no person in the public service is for that reason under any obligations to contribute to any political fund, or to render any political service, and that he will not be removed or otherwise prejudiced for refusing to do so.

Sixth, That no person in said service has any right to use his official authority or influence to coerce the political action of any person or body.

Seventh, There shall be non-competitive examination in all proper cases before the commission, when competent persons do not compete, after notice has been given of the existence of the vacancy, under such rules as may be prescribed by the commissioners as to the manner of giving notice.

Eighth, That notice shall be given in writing by the appointing power to said commission of the persons selected for appointment or employment from among those who have been examined, of the place of residence of such persons, of the rejection of any such persons after probation, of transfers, resignations and removals, and of the date thereof, and a record of the same shall be kept by said commission. And any necessary exceptions from said eight fundamental provisions of the rules shall be set forth in connection with such rules, and the reasons therefor shall be stated in the annual reports of the commission. Said commission shall, subject to the rules that may be made by the President, make regulations for, and have control of, such examinations, and, through its members or the examiners, it shall supervise and preserve the records of the same; and said commission shall keep minutes of its own proceedings. Said commission may make investigations concerning the facts, and may report upon all matters touching the enforcement and effects of said rules and regulations, and concerning the action of any examiner or board of examiners hereinafter provided for, and its own subordinates, and those in the public service, in respect to the execution of this act.

SECTION 6 limits the operation of the act to offices where the whole number of clerks and persons shall be altogether as many as fifty; and requires the various Executive Heads of Departments to arrange in classes the several clerks and persons employed in the respective offices under them.

SEC. 7. That after the expiration of six months from the passage of this act no officer or clerk shall be appointed, and no person shall be employed to enter or be promoted in either of the said classes now existing, or that may be arranged hereunder pursuant to said rules, until he has passed an examination, or is shown to be specially exempted from such examination in conformity herewith. But nothing herein contained shall be construed to take from those honorably discharged from the military or naval service any preference conferred by the 1,754th section of the Revised Statutes, nor to take from the President any authority not inconsistent with this act conferred by the 1,753d section of said statutes; nor shall any officer not in the executive branch of the government, or any person merely employed as a laborer or workman, be required to be classified hereunder; nor, unless by direction of the Senate, shall any person who has been nominated for confirmation by the Senate be required to be classified or to pass an examination.

SEC. 8. That no person habitually using intoxicating beverages to excess shall be appointed to, or retained in, any office, appointment, or employment to which the provisions of this act are applicable.

SEC. 9. That whenever there are already two or more members of a family in the public service in the grades covered by this act, no other member of such family shall be eligible to appointment to any of said grades.

SEC. 10. That no recommendation of any person who shall apply for office or place under the provisions of this act which may be given by any Senator or member of the House of Representatives, except as to the character or residence of the applicant, shall be received or considered by any person concerned in making any examination or appointment under this act.

SEC. 11. That no Senator, or Representative, or Territorial Delegate of the Congress, or Senator, Representative, or Delegate elect, or any officer or employee of either of said houses, and no executive, judicial, military, or naval officer of the United States, and no clerk or employee of any department, branch or bureau of the executive, judicial, or military, or naval service of the United States, shall, directly or indirectly, solicit or receive, or be in any manner concerned in soliciting or receiving, any assessment, subscription, or contribution for any political purpose whatever, from any officer, clerk, or employee of the United States, or any department, branch, or bureau thereof, or from any person receiving any salary or compensation from moneys derived from the Treasury of the United States.

SEC. 12. That no person shall, in any room or building occupied in the discharge of official duties by any officer or employee of the United States mentioned in this act, or in any navy-yard, fort, or arsenal, solicit

in any manner whatever, or receive any contribution of money or any other thing of value for any political purpose whatever.

SEC. 13. No officer or employee of the United States mentioned in this act shall discharge, or promote, or degrade, or in any manner change the official rank or compensation of any other officer or employee, or promise or threaten so to do, for giving or withholding or neglecting to make any contribution of money or other valuable thing for any political purpose.

SEC. 14. That no officer, clerk, or other person in the service of the United States shall, directly or indirectly, give or hand over to any other officer, clerk, or person in the service of the United States, or to any Senator or member of the House of Representatives, or Territorial Delegate, any money or other valuable thing on account of or to be applied to the promotion of any political object whatever.

SEC. 15. That any person who shall be guilty of violating any provision of the four foregoing sections shall be deemed guilty of a misdemeanor, and shall, on conviction thereof, be punished by a fine not exceeding $5,000, or by imprisonment for a term not exceeding three years, or by such fine and imprisonment both, in the discretion of the court.—[Approved January 16, 1883.

CLAIMS, ACT TO FACILITATE THE SETTLEMENT OF.

Chap. CXVI.—Whenever a claim or matter is pending before any committee of the Senate or House of Representatives, or before either house of Congress, which involves the investigation and determination of facts, the committee or house may cause the same to be transmitted to the Court of Claims of the United States, and the same shall there be proceeded in under such rules as the court may adopt. When the facts shall have been found, the court shall not enter judgment thereon, but shall report the same to the committee or to the house by which the case was transmitted for its consideration. That when a claim or matter is pending in any of the executive departments which may involve controverted questions of fact or law, the head of such department may transmit the same to said court, and the same shall be there proceeded in under such rules as the court may adopt. When the facts and conclusions of law shall have been found, the court shall not enter judgment thereon, but shall report its findings and opinions to the department by which it was transmitted for its guidance and action. The jurisdiction of said court shall not extend to or include any claim against the United States growing out of the destruction or damage to property by the Army or Navy during the war for the suppression of the rebellion, or for the use and occupation of real estate by any part of the military or naval forces of the United States in the operation of said forces during the said war at the seat of war; nor shall the said court have jurisdiction of any claim against the United States which is now barred by virtue of the provisions of any law of the United States. In any case of a claim for supplies or stores taken by or furnished to any part of military or naval forces of the United States for their use during the late war for the suppression of the rebellion, the petition shall aver that the person who furnished such supplies or stores, or from whom such supplies or stores were taken, did not give any aid or comfort to said rebellion, but was throughout that war loyal to the government of the United States, and the fact of such loyalty shall be a jurisdictional fact; and unless the said court shall, on a preliminary inquiry, find that the person who furnished such supplies or stores, or from whom the same were taken as aforesaid, was loyal to the Government of the United States throughout said war, the court shall not have jurisdiction of such cause, and the same shall, without further proceedings, be dismissed. That in the trial of such cases no person shall be excluded as a witness because he or she is a party to or interested in the same.—[Approved March 3, 1883.

The special tax of a dealer in manufactured tobacco shall not be required from any farmer, planter, or lumberman who furnishes such tobacco only as rations or supplies to his laborers or employees in the same manner as other supplies are furnished by him to them: *Provided*, That such person shall not be, at the time he is furnishing such suplies, engaged in the general business of selling dry goods, groceries, or other similar supplies in the manner of a merchant or storekeeper to others than his own employees or laborers.

That registers and receivers shall, upon application, furnish plats or diagrams of townships in their respective districts showing what lands are vacant and what lands are taken, and shall be allowed to receive compensation therefor from the party obtaining said plat or diagram at such rates as may be prescribed by the Commissioner of the General Land Office, and said officers shall, upon application by the proper State or Territorial authorities, furnish, for the purpose of taxation, a list of all lands sold in their respective districts, together with the names of the purchasers, and shall be allowed to receive compensation for the same not to exceed 10 cents per entry; and the sums thus received for plats and lists shall not be considered or taken into account in determining the maximum of compensation of said officers.—[Approved March 3, 1883.

Chap. CII.—The fourth section of the act donating public lands to the several States and Territories which may provide colleges for the benefit of agriculture and the mechanic arts, approved July 2, 1862, is hereby amended so as to read as follows:

Chap. CXXII.—In all cases where lands reduced in price to $1 25 per acre by the act of June 15, 1880, but which have not been offered at public sale at such reduced price, were inadvertently sold at private entry by the officers of the Land Department between the date of the passage of said act and the date of the receipt at the local offices of the instructions of the Commissioner of the General Land Office relative thereto of October 10, 1881, the entries so inadvertently permitted to be made by innocent purchasers, and which are regular in all respects except as to time of entry, shall be confirmed as of the dates of entry, respectively: *Provided, however*, That no valid adverse claim to any of such lands had at-

tached prior to the date of such entry.—[Approved March 3, 1883.

PARTY PLATFORMS, 1883.

Iowa Republican, June 27.

6. That stability is desirable in such public policies as relate to and affect all productive industries; and we condemn the threat of the Iowa Democracy to disturb and keep at unrest said industries and the capital and labor employed therein by "gradual and persistent efforts" to so change the customs laws as to establish free trade; and we insist upon such revenue laws as will encourage American industries and protect American labor in order that the American working men shall have a fair day's wages for a fair day's work, and tend to assure permanent employment.

7. That the inability of the Democratic party during the six years that it held undisputed control of the House of Representatives of Congress to agree on legislation for the revision of the tariff and the reform of the civil service, notwithstanding both subjects were constantly and prominently present in its platform promises and campaign activities, and the passage of laws affecting both of said objects by the Republican Congress at its late session demonstrates anew the incapacity of the former to deal with questions of great public concern, and that the country must rely on the latter for practical legislation.

Iowa Democratic, June 6.

2. That we denounce the abuse of the civil service of the Government, State or National, inaugurated and perpetuated by the Republican party, and we favor the extension of civil service reform in every department of the Government.

4. That we favor a tariff for revenue only by a gradual but persistent reduction of protective duties; and we denounce the tariff legislation of the last Congress as the result of corrupt and disgraceful intrigues and shameless attempts to perpetuate existing evils under the pretence of tariff reform.

Kentucky Republican.

3. That we favor the adjustment of a tariff that will not only provide a revenue sufficient to defray the expenses of the Government, but afford a just and reasonable protection to the industrial classes of our country without being oppressive to the agricultural and other interests of our people.

Kentucky Democratic, May 17.

3. That our laws in relation to revenue and taxation should be so framed as to secure equality in rate of assessments as nearly as possible, and to insure the collection of revenue in the most convenient and inexpensive manner.

Massachusetts Republican, Sept. 19.

We believe in equal rights and a fairly counted vote, a thoroughly pure and reformed Civil Service beyond the reach of party conflicts, a sound currency based on an honest specie dollar, a liberal, but in no wise extravagant or wasteful, expenditure, a largely reduced taxation, and wise and well-matured laws to protect and develop American industry and enterprise, both at home and on the ocean.

Massachusetts Democratic, Sept. 26.

We believe in a thorough reform in the Civil Service, in which fitness, not favor, shall regulate appointments, and in a tariff limited in amount to the sum necessary and adequate for revenue.

Minnesota Republican, June 28.

We believe in maintaining a system of internal revenue levied upon articles of luxury, such as whiskey and tobacco, together with a system of duties on imports, so applied as to provide revenue for the necessary expenses of the Government, and so adjusted as to encourage the development of the manufacturing and labor interests of the whole country.

Minnesota Democratic, August 3.

We favor such a thorough revision of the present tariff laws as will remedy existing evils and result in the establishment of a tariff for revenue only as the permanent commercial policy of this country.

New-Jersey Republican, Sept. 18.

3. We congratulate the country upon the successful application of the principles of genuine Civil Service Reform in the National Administration, and favor the adoption of the system in all branches of our State government.

4. We believe that the prosperity and happiness of our own people are of paramount importance, and therefore we insist upon a tariff so adjusted as to give full protection to home labor and industry, and sufficient to develop all the resources of the country, and favor such wise and proper State legislation as will protect honest labor from unfair competition.

New-Jersey Democratic, Sept. 13.

They believe in that genuine and deep-reaching Civil Service Reform which consists in the election to office of honest, intelligent, capable and courageous public servants, who will faithfully administer their trust, and who will be held to strict accountability for such discharge of it. They denounce the sham methods of the Civil Service Commission in its pretended examination of candidates for place, together with the disgraceful system of bargain and sale of office, which is now practised by the Federal Government, as shown by the abuse of patronage in Virginia and other States.

2. We favor a tariff for revenue, limited to the necessary expenditures of the Government, and so adjusted as to give protec

tion and encouragement to home productive industry and labor, without producing or fostering monopolies.

New-York Republican, Sept. 19.

The Republicans of New-York in State Convention hold that the record of the Republican party in the past affords the best guaranty of the party's purposes and acts in the future. The preservation of the Nation's life, the extension of freedom and equal rights to embrace all, the keeping of the National faith, the promotion of the National credit, the payment of the public debt, the reduction of taxation, the protection of home industries, the elevation of labor, the purification of the Civil Service, and in fine, the administrative policy based upon wise legislation that has given unexampled prosperity to the country and promoted the happiness and progress of the people, are achievements that commend the Republican party to continued popular favor.

We rejoice in the wisdom and success of President Arthur's administration of the affairs of Government, which commands universal respect throughout the country, and has the confidence and support of the Republicans of the State of New-York. Our Senators and Representatives in Congress have our thanks for their part in the reduction of internal taxation to the extent of $40,000,000, while the National credit is kept unsullied, the public debt is being steadily reduced, and the defenders of the National life are justly the recipients of a grateful republic's bounty. We approve honesty and fidelity in Governmental expenditures, the reduction of interest on the public debt, and the payment of the debt as rapidly as may be without unduly burdening the people; the bringing of taxation within the lowest practicable limits; the reduction of the force of public officials to the lowest number consistent with the requirements of the service, and the adoption of every practical means that will diminish the burdens of taxation.

We rejoice in the successful inauguration of Civil Service Reform, a result of Republican agitation and National progress, and insist that the work thus auspiciously begun shall be prosecuted to complete success.

We favor a system of tariff laws under which, while revenue for the Government is provided, American producers are justly protected, American labor elevated, and home markets are secured to home products for the advantage alike of the producer and laborer.

We favor the removal of all unjust burdens upon American shipping and the awarding of ocean mail contracts to the lowest bidders among owners of American vessels after open competition.

We favor the establishment by Congress of a national bureau of labor statistics with the object of promoting the industrial, social and sanitary conditions of the people.

We favor the surrounding of the primary meetings as well as the popular election with the security of honesty and purity, as indispensable requisites to correct political action.

The tendency to create monopolies requires checking by adequate legislation. Unjust discrimination in transportation should be prohibited, and violation of chartered privileges justifies the interference of the State to correct the evils thus engendered.

Taxation should be equalized, and its burdens be borne proportionately by real and personal property; and the policy of the taxation of corporations is approved on the test of its practical operation.

The free canal policy of this State has in practice justified its adoption, by restoring the canals to their usefulness, by bringing to the State increased commerce, by assuring to it the continuance of commercial supremacy.

We approve the plan of party reorganization in the city of New-York, and recommend that it be persisted in to the end that it shall embrace all Republicans in the city on equal terms and footing.

We believe in the wisdom of the people in deciding all questions pertaining to the public welfare, and would accede to the desire of a large body of our citizens to submit to the voters of the State a constitutional amendment in regard to the manufacture and sale of intoxicating liquors.

Democratic incapacity and inability to administer government are demonstrated in the conduct of the late Legislature, where a two-thirds Democratic majority was false to its pledges and to public interests. The reckless partisanship and insatiate greed for office of the Democratic party brought it into public contempt. Its special legislation to make places for partisans and its increase of the salary list to reward favorites brought upon it public execration. Its utter disregard of important public interests and its increase of State taxation are offences not to be condoned. The course pursued in its cowardly attempt to evade the responsibility of affirmative action on the convict labor question, and to shirk the issue directly presented in the platform of the last Democratic State Convention, has earned the distrust of the taxpayer and the contempt of the workingman.

It is the duty of the people to rescue the Legislature from the control of an incompetent and faithless party and from being the sport of place-hunters and spoilsmen, and to secure a continuance of economical, efficient and satisfactory administration of State departments by the election of the ticket or State officers this day placed in nomination.

New-York Democratic, Sept. 27.

The Democracy of New-York reaffirms the platform adopted at its last State Convention, which has received the approval of the people, as shown by a majority of nearly 200,000 at the last election, and they especially denounce the proposition that the people should be taxed to raise a surplus fund for the Federal Government to distribute among the States. We claim with pride and satisfaction that every pledge therein made has been in good faith redeemed; valuable reforms have been wrought; useless offices have been abolished; the Civil Service has been freed from the debasing and injurious influences of partisan manipulation; the freedom and purity of primaries have been secured; political assessments have been abolished; receivership abuses have been corrected; the principle of local self-government has been adhered to; the efficiency of the National Guard has been

increased; taxation for the snpport of Government has been reduced; a State Bureau of Labor Statistics has been established; the rights of the workingman havo heen further protected, and the injurions competition of convict lahor has heen curtailed; business methods have been the rule in the management of State affairs.

Ou the record thus made, and to which it will steadfastly adhere, the Democratic party asks a renewed award of the confidence of the people. We invite with reason all friends of improved State administration, irrespective of party, to join with the Democracy in preserving and perfecting the reforms in progress and in extending them to all branches of the State service.

We heartily indorse Governor Cleveland's administration. It jnstifies the great vote which elected him. He has deservedly won the affection of the people by his industry, firmness, intelligence and aggressivo honesty. The results make his administration one of the hest the State ever had.

Ohio Republican, June 6.

2. That the Republican party believe now, as in the past, in the maintenanco of a tariff system which will provide a revenue for the Government, aud at the same time will protect American prodncers and American labor; that it is opposed to tho Democratic doctrine of a tariff for revenne only," hecanse such a doctrine, if indorsed, would of necessity compel Americau workmen to accept the unremunerative wages which are paid their foreign rivals. It looks with alarm upon the purpose already avowed hy the Democratic leaders that the next Congress will reviso the tariff by further reducing the duties on imports.

3. That the wool tariff of 1876 should be restored at the first possiblo opportunity.

10. That we reiterate the declarations of previous Republican conventions in favor of Civil Service Reform, and welcome every intelligent effort to make that measure practical; and we cspecially appreve the provisions made by a Republican Congress for giving the patriotic soldiers of the late war, with the proper qualifications, the preference for all places under the Government.

Ohio Democratic, June 21.

2. We favor a tariff for revonne, limited to the necessities of the Goverument, economically administered, and so adjusted in its application as to preveut unequal burdens, encourago productive industries at home, and afford just compensation to lahor, hut not to create or foster monopolios.

3. The act of the Repuhlican Congress, redncing the tariff on wool, while at the same time increasing it ou woolen goods, already highly protected, was iniquitous legislation, discriminating in favor of monopoly aud against the agricultural interests of the country, and onght to he corrected, and we heartily approve tho action of the Democratic members of the Ohio delegation in Congress in voting against that measure.

7. We reaffirm the resolutions of the State Conventions of Ohio in 1880. 1881, and 1882, and of the Democratic National Conventions of 1872, 1876, and 1880, demanding a thorongh reform and pnrification of the Civil Service, and charge that the Republican party has violated every pledge it has heretofore given for the reform thereof, and has failed dnring its long administration of the Government to correct oven the most crying ahuses; and we demand, therefore, a change in the exccutive administration of the Government itself, as the reform first of all necessary (as made still more manifest hy the recent Star-Route trials), thereby ousting corrupt rings, confederated to protect crime and prevent the puuishment of criminals, and by so doing to make it possible again to punish frand aud theft iu tho puhlic service.

Pennsylvania Republican, July 11.

1. We unqualifiedly approve and domand the continuance of that system of protection to home indnstry which has proved itself to bo the basis of National independence, the incentivo to industrial skill and development, and the guaranty of a just and adequate scalo of wages for labor; and we denounce all attempts to reduce the rates of the tariff below the level which will accomplish these objects.

2. That auy surplns in tho public Treasnry arising from a redundant revenne should, after paying the National debt as fast as its conditions permit, he distributed from time to time to the several States upon the basis of population, to relieve them from the burdens of local taxation aud provide meaus for the edncation of their people.

7. Wo commeud every effort to inaugurate thorough and correct Civil Servico reform in all the departments of the National and State administrations.

Penusylvania Democratic, August 11.

They believe in that genuine and deep-reaching civil service rcform which consists in tho election to office of honest, intelligent, capable and courageous public servants, who will faithfully administer their trust and who will be held to strict accountability for such a discharge of it, and who will redeem and purgo tho departmeuts of the General Government from that corruption and frand with which they have been permeated under Republican rule and which that party has shown itself unable and unwilling to eradicate. They believo in such taxation of the people as is requisite for the uecessities of the Government, ecouomically administered, aud that import duties should bo so adjnsted in their application as to preveut uuequal burdens, enconrage productive industries at home aud afford just compensation to labor, but not to create or foster monopolies.

2. They denounce the proposition of the Republican Party that the people should bo taxed to raise a snrplus fund for the Federal Government to distribnto amoug States. The people should only be taxed so much as is absolutely indispensable for the frngal conduct of their affairs, uot one cent for surplus and no unnecessary taxation. The existing surplns in the Treasury should he faithfully applied to the payment of the public debt. The mouey not needed for the expenses of the Government should remain in the pockets of the people.

3. To this end we favor the entire abolition of the present system of the internal taxatiou as a measure of relief domanded by the people from an unnecessary and uneqnal burden.

* 11.65 per cent. † 88.35 per cent. Of total stock over 80 per cent earned a profit and nearly 20 per cent earned noue.

The actual assets for the whole system amount to $5,536,419,787 74, and the actual liabilities to $5,425,722,559 54; which leaves $110,697,228 20 as actual profit and loss to credit for tho coubined roads.

The permanent investments amount to nearly 94 per cent of the total actual assets, against which the actual liabilities show about 92 per cent of capital stock paid in and funded debt, the first being 48 per cent, and the latter near 44 per cent of such liabilities.

The unfunded debt is near 8 per cent of total liabilities, and is offset by nearly 7 per cent of cash assets and the excess of permanent investments over amount of stock and funded debt, which is over 3 per cent of total.

POLITICAL MISCELLANY.

ALABAMA—July 3, 1883, Hon. *James T. Jonas* was elected to succeed, in XLVIIIth Congress, Hon. *Thomas H. Herndon*, deceased, by a vote of 6,413 to 1,499 for Philip Joseph.

CONNECTICUT—A Constitutional Amendment to provide for biennial sessions, passed the last Legislature and if approved by two-thirds of the next, will be submitted to vote.

DAKOTA—There was a majority of 5,552 in favor of the new Constitution, proposing to erect into a new State that part of the Territory which lies south of the forty-sixth parallel of latitude.

DELAWARE—Three Constitutional Amendments passed the last Legislature, and, if approved by two-thirds of the next, will become valid. Amendment I. enlarges the powers of the Legislature to create corporations. Amendment II. gives each county four Senators, Wilmington to elect two of New-Castle County's four; and gives Kent and Sussex seven members of the House each, and New-Castle eleven, of whom Wilmington will elect four. Amendment III. modifies the judicial system.

GEORGIA—*James S. Boynton* qualified as Governor March 5, 1883, succeeding *Alexander H. Stephens*, died March 4. April 24 *Henry D. McDaniel* was elected Governor by a vote of 23,680; scattering, 334. The Legislature, at its August session, passed a general local option law.

ILLINOIS—A Constitutional Amendment to give the Governor power to veto items in a general appropriation bill without invalidating the other portions of the bill has passed the Legislature, and is to be submitted to popular vote in 1884.

John M. Hamilton became Governor February 6, 1883, succeeding Shelby M. Cullom, elected U. S. Senator.

INDIANA—January 9, 1883, Charles T. Doxey was chosen to succeed in XLVIIth Congress Godlove S. Orth, deceased, by a vote of 13,651 to 11,948 for *Thomas B. Ward*.

The Legislature of 1880 having passed a proposed Prohibitory Amendment, in the Legislature of 1882, the Senate voted—yeas 25, nays 23—January 29, 1883, that this amendment, not having been entered on the journal of the previous Senate, as required by the Constitution, was not properly before the body. February 6, the House voted—yeas 52, nays 35—that the amendment was properly before it. There having been no affirmative concurrent action of the two bodies, the amendment fell.

IOWA—November 5, 1883, Hon. *John C. Cook* was chosen to succeed, in XLVIIIth Congress, Hon. Marsena E. Cutts, deceased, by a vote of 14,894 to 14,653 for W. Stiles; scattering, 9.

The Supreme Court decided that the Prohibitory Amendment to the Constitution, approved by the people June 27, 1882, was not adopted by the Legislature in the manner required by the Constitution; and it was therefore declared null.

LOUISIANA—February 15, 1883, Hon. *Edward T. Lewis* was chosen to succeed, in XLVIIIth Congress, Hon. *Andrew S. Herron*, deceased, by a vote of 6,366 to 569 for Louis Trager; scattering 22.

MAINE—A Prohibitory amendment will be voted upon in the September election, 1884. It passed the last House—yeas 104, nays 37, and the Senate—yeas 21, nays 2. A motion in the House to strike the word "cider" from the resolution was rejected—yeas 56, nays 80.

MASSACHUSETTS—A proposed amendment to provide for biennial elections and sessions passed the House—yeas 101, nays 46—and the Senate—yeas 15, nays 12. If approved by a majority of the new Senate and two-thirds of the House, it will be submitted to the people. The Legislature of 1879 passed a like resolve but that of 1880 excised from it the bienuial session provision, and that of 1881 then rejected it.

The Senate, 11 to 21, refused to memorialize Congress in favor of a Woman Suffrage Amendment.

The House, 83 to 115, defeated a proposed Prohibitory Amendment.

Hon. George D. Robinson, elected Governor, resigned as Representative in Congress, to take effect December 31, 1883.

MICHIGAN—A Prohibitory Amendment was indefinitely postponed in the House—49 to 38.

NEW-YORK—The proposed amendment relative to the organization of cities, adopted by the Legislature of 1881 was not approved by the Legislature of 1882.

NORTH CAROLINA—November 20, 1883, Hon. *Thomas G. Skinner* was chosen in the new First District to succeed Hon. Walter F. Pool, elected in the old First District, to the XLVIIIth Congress, by a majority of 777 votes over C. C. Pool. A question has been raised in the House of Representatives as to the legality of this election.

SOUTH CAROLINA—Two Constitutional Amendments were adopted in 1882. One denies the power of the General Assembly to deprive a citizen of the right of suffrage, except for treason, murder, burglary, larceny, perjury, forgery or any other infamous crime, or duelling, whereof the person shall have been duly tried and convicted. Yeas, 57,908; Nays, 3,485. Another struck out Sect. 11 of Art. 2 of the Constitution as amended, and substituted for it a provision that the general elections for Senators and Representatives shall be held in every second year in such manner, at such time, and at such places as the Legislature may provide. Yeas, 52,255; Nays, 3,693. A third proposition that no new county should be formed with a population of less than 12th part of the population of the State, and an area less than 400 square miles, nor shall an existing county be reduced to a less area than 400 square miles, was defeated. Yeas, 26,230; Nays, 32,553.

TENNESSEE—A State Debt bill was enacted which scales the principal of the debt to fifty cents on the dollar, and the interest to three per cent—par to be paid to the bonds of educational institutions within the State with the contract rate of interest.

TEXAS—Four amendments to the Constitution were adopted at a special election, August 14, 1883: 1st—Relating to the Public Free School Fund. Yeas, 29,734; Nays, 21,060. 2d—Relating to Taxes. Yeas, 29,482; Nays, 20,188. 3d—Relating to Public Free Schools. Yeas, 30,553; Nays, 20,237. 4th—Relating to County Courts. Yeas, 30,640; Nays, 17,498. No. 1 authorizes investment of funds in U. S. bonds, State bonds, County bonds of Texas, and such other securities as may be prescribed by law. No. 2 limits State tax to 35 cents on $100; City or County tax to 25 cents; road and license tax to 15 cents, and permanent improvement tax to 25 cents. The State tax authorized is additional to that required to pay public debt and maintain public free schools. No. 3 limits the free school tax to 20 cents, which with one-fourth of the State occupation tax and a poll tax of $1 on every male inhabitant may be applied to maintaining schools for not less than six months in a year. Additional tax, not to exceed 20 cents, may be voted in school districts, two-thirds of the taxpayers agreeing. No. 4 fixes the county court terms at not less than four each year, a jury to consist of fourteen men.

Judicial Decisions.

The Supreme Court of the United States has affirmed the decision of the Court of Appeals of Virginia declaring constitutional the act of January 14, 1882, commonly known as the "coupon-killer." It also sustained the refusal of the United States Circuit Judge in New-Orleans to grant a bill filed for the purpose of having the provision of the Constitution of Louisiana scaling indebtedness set aside as impairing the obligation of contracts, on the ground that the judiciary has not power to compel the executive officers of a State to perform acts which they are expressly prohibited from performing by the Constitution and laws of the State. It also held in the New-Hampshire and New-York courts that under the Eleventh Amendment to the Constitution of the United States a citizen of New-Hampshire cannot sue the State of Louisiana, nor can a State assume to act as a collecting agent for its citizens. It also held, in the Civil Rights cases, as to the first two sections of the act of March 1, 1875 (Stat. XLIIId Cong., p. 336), "that no countenance of authority for the passage of the law in question can be found in either the Thirteenth or Fourteenth Amendment of the Constitution; and no other ground of authority for its passage being suggested, it must necessarily be declared void, at least so far as its operation in the several States is concerned."

	1 year.	6 months.	3 months.	1 month.
DAILY, with Sunday.....	$8 50	$4 25	$2 15	$0 75
DAILY, without Sunday.....	7 00	3 50	1 75	75
SUNDAY TRIBUNE.....	1 50	.....	.....	.....

SEMI-WEEKLY, $2 50 a year ; in club of ten, $2 a year, with extra copy to man sending club.

WEEKLY, $1 25 a year ; in clubs of ten, $1 a year, with extra copy to man sending club.

Counting postage, about two cents a copy on all editions. The most, in quantity and value, for the least money, of any paper in America.

THE TRIBUNE this year is cheaper than ever, and better than ever. It has not reduced character with price. A trusted, clean, wholesome family paper, it has long enjoyed the largest circulation among the best people—the industrious, frugal, and moral, whom every community recognizes as its best citizens—and it means to keep and increase this circulation by continuing to deserve it.

THE TRIBUNE is the leading New-York paper—complete in news, strong and sound in comment, pure in tone, large and legible in print—spending money lavishly for news, and as lavisbly for brains to handle it. It gives, with absolnte fairness and all possible accuracy, the news of the whole world best worth the attention of intelligent men and women ; and is recognized as the authority on political, business, bank, railroad, and financial, literary, educational, scientific, social, and religious intelligence.

THE TRIBUNE is heartily Republican: and believes that the restoration of the Democratic party to power, after twenty-four years' exile, would be as disastrous as a revolution. Every important material interest in the country dreads such a change in 1884. THE TRIBUNE confidently believes it can be prevented, and to that end asks your aid.

THE TRIBUNE is always on the side of morality, good order, reform, and progress. It warmly sympathizes with every practical effort to restrict the traffic in intoxicating liquors. It always favors the cause of honest labor; and in the interest of the American Workingman supports a Protective Tariff. It has no interest, for or against corporations, to hinder its taking the just and fair course, best for all the people and the whole country. It is the organ of no person or faction, is under no control save that of its Editor, and knows no obligation save that to the public.

THE WEEKLY TRIBUNE has been for a third of a century the favorite of our substantial rural population. It has a larger and wider circulation than any other weekly issued from the office of a daily in the United States. A complete weekly newspaper of sixteen and sometimes twenty or twenty-four pages, its agricultural matter is believed by farmers to be the best published. It contains full markets and many features of interest in the home circle. This year two series of special articles will be printed, one for young men, the other for farmers. Every grown man knows by his own experience that young men would make greater progress in life if they knew the practical maxims that ought to govern them, and which have actually governed the men who have risen from poverty by their own exertions to the positions of power or wealth. THE TRIBUNE will print, in the course of the year, the lives of a number of prominent men, written either by themselves or from their lips, with this object in view. The other series will be upon important Farming topics.

THE SEMI-WEEKLY TRIBUNE is the best substitute for the Daily. It has all the matter of the latter of more than transient interest, and all the special features of the Weekly. Sixteen to twenty pages.

THE TRIBUNE will be indispensable during the Presidential canvass.
